SELLING 300 LOTS 200 COWS

We have greatly enjoyed our 27 years in the Polled Hereford business. However, we've decided it will be most advantageous for us to disperse at this time. We have one child in college and need some time for ourselves to put our house in order. Farm help is getting harder to find. This is a good set of cattle and we stand behind each and every one. Contact us or National Cattle Services for your catalog. The cattle are available for viewing at the ranch anytime. We welcome and invite your visit.

Amarillo, Jan. 6 (F.S.) — Slaughter steers and heifers steady. Trade bulk moderate to very active each day. Bulk of sales to local packers, however, several pens sold to southern and Colorado interests. Most feedyards reported fair to good interest throughout the week. Several area packers have been slaughtering previously purchased cattle and this week's sales were fairly liberal for the holiday shortened week. The average live weight of cattle slaughtered by area packers last week was 1066 lbs. Sales on 43,900 slaughter steers, 14,800 slaughter heifers, including around 2,500 steers sold on grade and yield basis. Note: All live cattle prices based on net weights for the feedlot after 4 percent shrink. Grade and yield prices usually based on carcass beef price on day of slaughter.

ABBA Convention, Meeting Schedule In Tampa Set

Houston — The 1978 ABBA Convention and 54th Annual Membership Meeting will be held in conjunction with the 1978 National Brahman Show and Sale February 2-4 in Tampa, Florida.

Brahman breeders, guests and enthusiasts from all over the United States, Mexico, Central and South America will participate in the week's activities. This is the first annual membership meeting to be held outside of the state of Texas, and the officers and directors of ABBA have extended a special invitation to all Brahman breeders and their families to be a part of this historic event. Headquarters for all activities will be in the Riverside Hilton Inn.

Saturday, February 4, will be the focal point for the week's activities. The ABBA director from Guatemala, Neil Potter, will judge the 1978 National Brahman Show, which starts at 8:00 a.m. on the Florida State Fairgrounds with the female classes. Some of the best young Brahman cattle in the world will come to Florida to compete for their share of national honors as well as some \$10,400 in prize money.

At 2:00 p.m. on February 4, activities move to the sale barn on the fairgrounds when the 1978 National Brahman Sale starts. A very select group of haltered cattle will be offered there in one of the year's most prestigious sales.

The week begins on Thursday, February 2, with the regular winter meeting of the association's board of directors and an informal style show for the ladies. Friday the annual membership meeting will be held beginning at 8:00 a.m. in the ballroom of the Riverside Hilton Inn. Members will hear reports from their standing committees as well as annual reports by both Dr. Richard Ferguson, ABBA president, and Wendell Schronk, ABBA executive secretary. Officers will be elected and the newly elected directors will be named prior to the meeting's conclusion.

The annual dinner and dance will also be in the hotel's ballroom on Friday at 6:30 p.m. and will feature the music of The Judge and the Jury. The event, which is expected to attract over 400 people, will begin with an informal reception at 6:30 p.m. followed by dinner and dancing until 12:00 midnight. Tickets for the reception and dinner-dance are on sale for \$17.50 apiece and members are asked to purchase them in advance.

Canada Is Expected To Participate In A Separate Arrangement Covering U.S. Canadian Two-Way Trade In Beef Similar To That Of 1977.

ABBA 1978 Report With 1977 Transfers

The American Brahman Breeders Association processed a record 23,947 transfers during 1977.

The new record was the sixth consecutive transfer record and also marked the sixth straight year that transfers have increased. Registrations were down slightly from 1976's record 34,000 but still broke the 30,000 mark at 31,356.

Wendell Schronk, ABBA executive secretary, said the Brahman's continuing popularity could be attributed to its expanding role in crossbreeding programs and the breeders' ability to produce cattle to fit the needs of today's cattlemen.

NCA Calls For Better Control Of Cattle Imports

(CONT. FROM PAGE 1)

Bob Bergland, NCA President Richard A. McDougal noted that more than 900,000 cattle were imported from those two nations in the first 11 months of 1977.

McDougal acknowledged that the total number of cattle being imported from the neighboring countries is not within the total census, a large number of cattle. However, he said, "due to seasonal fluctuations and local market impact, these imports do have devastating consequences to the domestic producers along the border states."

It was noted that in addition to live cattle imports, Canada and Mexico are significant exporters of beef subject to the Meat Import Law of 1964. Under the 1977 Voluntary Restraint Agreement, the U.S. was scheduled to import 62.1 million pounds from Mexico and 76 million pounds from Canada. McDougal said these figures are equivalent to an additional 342,000 cattle. In addition to this, he said, more imports from Canada and Mexico were allowed in 1977.

McDougal said, "We believe in being fair on trade matters, but enough is enough. It is difficult to understand why, when our own domestic industry has been suffering from losses for the past four years, we continue to allow and actually encourage more imports."

ABBA Convention, S. Texas Brahman Sale Set Feb. 11

Pleasanton, Texas — The South Texas Brahman Association's fifth annual Brahman show & sale will be held Saturday, Feb. 11, at 1 p.m. in the Atascosa Livestock Exchange here.

The sale offering will consist of 60 herd bull prospects and top commercial bulls; and 100 replacement type females including pairs, bred cows and open heifers. Both Red and Gray Brahman cattle will be sold.

Big "B" Brahman Bulls Avg. \$480

Sulphur Springs — The Big "B" Brahman bull sale at Sulphur Springs Livestock Commission Co. Jan. 7 received bids totaling \$27,350 on 57 bulls for an average of \$480. The consignment sale was conducted by Gayle Ingram, Quitman.

The top six bulls sold for \$700 each and were all purchased by Charlie Wood's Spring Valley Ranch, Carthage. Three were consigned by Stewart Barrow, Nacogdoches; two by Marion R. Lawler, Honey Grove; and one by J-B Ranches, Crockett.

Another bull consigned by S. C. Short, Paris, was purchased by Tommy Cassels, Huntington, for \$650.

The Spring Valley Ranch was a top volume buyer taking 11 head: 2M Cattle Co., Yantis, bought 18 lots; Fielding Ranch, Sulphur Springs four lots; and the balance went to buyers scattered over East Texas.

Big Sister Foreman and other Burrows appear to get together now and then and get carried away by the heady perfume of Academic hashish and finger out what they think we are to want. The most recent caper at USDA was the scheme to buy beef patties cooked & frozen. When the bids were in only two vendors had bid on this order, so it was back to the drawing board to find out what went wrong. Naturally, they would never think to ask meat packers if frozen, cooked beef patties were practical or could be produced in volume. This trip into the wild blue yonder is similar to Mrs. Foreman's plan to buy only ground beef for school and institutions made from choice or prime beef. This idea of letting folks eat higher on the beef also toppled. It was never suggested that the beef industry be asked what might be wrong with hamburger made from choice or prime beef, instead of good lean cow beef.

We doubt not that most of us could do with a little guidance now and then, the problem seems to be who is going to be said "We need standards, or guidelines, based on an individual's age, sex, lifestyle, work environment, racial or ethnic traits, overall health and geographic location." Now that or to cover the landscape pretty well. Her excuse for this butt-in is "the public wants guidance." What puzzles us is the who, when and where the public asked Mrs. Foreman and the rest of the Burrows gaggle for guidance?

not possible and not the role of the federal government to guarantee all farmers a profit year after year.

"Farmers, like any other businessmen, are entitled to a fair return on their investment, their labor and their management skills," he said.

"While the nation, in its own self-interest, has a responsibility to keep agriculture productive and strong, the nation does not have the responsibility of assuming all the risks of farming and to guarantee full parity income," Bergland said.

In amount big enough to kill a horse, so a new strain of super-tough rats might help before we all die of fright. Dunk figures that since then farmers fed cement dust to cattle and got big gains in the way of additives, but don't bet that if fed enough concrete their test rats and gonna develop problems, too! Dunk notes where the Community Nutrition Institute has decided chilling poultry in cold water can add 12% to the weight and frozen poultry can pick up 10% in weight. The National Provisioner magazine, who has some experts to figure these things out since 72 billion pounds of fryers and 575 million pounds of frozen poultry are sold, according to the USDA figures the industry sold you & me 821 million pounds of water as chicken meat, costin' us \$498 million dollars. The Provisioner wonders how many of these 25-pound chickens are in Washington writing consultant and Govmint reports! —Thessall, Brothers!

Oklahoma Hog Inventory

Based on a December 1 survey of Oklahoma hog producers an estimated 330,000 hogs and pigs were on state farms and ranches, the same number as a year ago but 30% below the June 1, 1977 level, according to the Oklahoma Crop and Livestock Reporting Service. Hogs and pigs for breeding purposes, at 45,000 head, were 15% below both June 1, 1977, and December 1, 1976. The 285,000 market hogs and pigs were up 8% from the previous year but down one percent from June 1, 1977.

To get a realistic handle on how much a good Red Brangus bull will pay you, let's use some conservative assumptions:

At 40¢ calf prices, this means our Red Angus bull will put at least \$18 per year, or \$400 extra per year in your pocket. In seven years that's \$2800 plus \$450 salvage value for a total of \$3250. Even after you subtract out a good margin of profit for you, allow for estimating errors, and discount the \$400 per year in increased future revenues over his seven year useful life back to present value, you can afford to pay \$1000 or more for a Red Angus.

bulls for less than \$1000 — because you can — but don't be afraid to pay a little more for the bull you really want, because he'll pay you back!

Contact your favorite Red Brangus breeder today, pick out the bull you like best, grow him out the way you want, and then let him pay you!

AMAA Changes Show, Appendix Heifer Upgrading Program

The American Maine-Anjou Association Board of Directors recently approved changes in the area of the appendix heifer program, the upgrading of Maine-Anjou, and eligibility of percentage blood cattle in AMAA sponsored shows.

The female progeny of appendix heifers bred to percentage bulls can now be registered as 1/2 bloods in the AMAA herdbook. Previously, only purebred bulls could be used on appendix heifers with the resulting heifer or bull-calf being registered as 3/4 blood.

Now the female offspring of a 3/4 or 7/8 blood bull used on an appendix heifer can be registered as a 1/2 blood. However, 1/2 blood bulls cannot be registered.

Following is a table outlining the upgrading program as now accepted by the AMAA:

Bulls		Females	Offspring
PB-18/16	X 100-PB	-	Purebred
PB-18/16	X 7/8-PB	-	Purebred
PB-18/16	X 3/4	-	7/8*
PB-18/16	X 1/2	-	3/4
PB-18/16	X 0	-	1/2
